

INCOSE UK Tutorial Day 2013

Lydiard House

INCOSE UK Chapter Tutorial Day 12th June 2013

INCOSE UK tutorial days provide an opportunity to extend or reinforce your Systems Engineering skills by learning from acknowledged experts. This year we have deliberately focussed on subjects that are of practical use in the SE workplace. These include topics that are part of established SE processes and techniques to add to your SE 'tool-box'. Here is some of the feedback from last year's delegates:

"Good practical demonstration of topic through targeted appropriate exercises."

"All training objectives were met. Very, very useful and allows me to now research further those areas that are particularly of interest or where I need more depth."

"Excellent content extremely relevant and appropriate level of delivery."

This year's tutorial day will be held at the Lydiard House Conference Centre near Swindon SN5 3PA on the 12th June 2013. We are offering a choice of four full day tutorials that explore a range of Systems Engineering topics. You can register for a tutorial by visiting our website: www.incoseonline.org.uk where you will also find full details of the four tutorials:-

1. An Introduction to Soft Systems Methodology – Kees van Haperen;
2. Model Based Systems Engineering for Large-scale Software Based Programmes – Felicity Fashade and Philip Wilson;
3. Successfully Managing People as Part of the System – Fiona Cameron and Sandra Hudson;
4. Running an Effective Requirements Review – Paul Davies and Hazel Woodcock.

At least 6 registrants are required for a tutorial to be run and there is a maximum of 15 places on each tutorial. You are recommended to book early to secure a place on your chosen tutorial.

The charge for registering is £300 (ex VAT) for INCOSE members and £360 (ex VAT) for non-members. Non-members who sign up for membership of INCOSE at the time of registering for the event (£95) will be charged at the member rate. Student and retired member concessions are available – see our website for details.

INCOSE Associate or Certified Systems Engineering Professionals (ASEP or CSEP) receive 1 PDU (Professional Development Unit) for every hour they attend. This tutorial day will be worth 8 PDUs to each attendee.

For any enquiries related to this event please contact the INCOSE UK Secretariat at: enquiries@incoseonline.org.uk.
