

IfSE UKAB Membership Benefits

Membership of the IfSE Advisory Board provides direct access to the professional home for systems engineers in the UK.

IfSE is the professional body through which systems engineers evolve and share knowledge about Systems Engineering, elevate the Systems Engineering discipline, develop, accredit and certify Systems Engineering professionals, and influence standards, government policies, and university programmes.

“Research indicates that effective use of Systems Engineering can save over 20% of the project budget.” NDIA studies 2008 and 2012 - Eric Honour

UKAB Benefits

Join the IfSE Advisory Board as a member alongside more than 35 other organisations; enable your organisation to harness the business benefits of engaging with IfSE.

IfSE UKAB Membership Benefits

IfSE Advisory Board Membership: Summary of Key Benefits

Access to the UK's premier Systems Engineering Network

- Access to a network of Systems Engineering good practice, documents, knowledge, Working Groups, publications, webinars and industry practitioners; all of which can accelerate your organisation's application of Systems Engineering (and in turn allow your projects to realise up to 20% budget savings).
- Through UKAB and IfSE engagement, keep pace with trends in Systems Engineering.

Education and Development

- Making a visible commitment to Systems Engineering; demonstrating to employees, customers and peers that Systems Engineering is valued within the organisation.
- Promote and enable Continuing Professional Development for Systems Engineers; link employees with IfSE Working Groups and Local Chapter events; as such this provides access to 'free' CPD activity.
- Shape the 'voice of industry' and influence the direction of IfSE's Academic endeavours to ensure there is a continued and sufficient supply of suitably qualified, professional and experienced Systems Engineers.

Recognition as a 'leader' in Systems Engineering through association with IfSE

- Becoming part of the Systems Engineering network with similar organisations committed to Systems Engineering.
- Increased organisation profile with the Systems Engineering and wider communities.
- Participate in UKAB meetings where your organisation can influence the agenda and priorities of the IfSE Council, who in turn direct IfSE technical and academic endeavours.
- Contributing to the evolution of the Systems Engineering good practice, knowledge, methodologies, standards and documents.
- Reputational and customer satisfaction benefits from application of Systems Engineering.

Exclusive Marketing Opportunities

- Exclusive stand discounts at IfSE events including the Annual UK Systems Engineering conference (ASEC).
- IfSE UKAB membership guarantees your organisation's logo will appear on select IfSE publications and the IfSE UKAB membership display at IfSE events.

IfSE UKAB Membership Benefits

- Advertise vacancies directly into the Systems Engineering practitioner community.

IfSE Publications and IfSE Services

- Free copying and distribution rights to all IfSE event proceedings and Working Group products within the organisation; including the IfSE Competency Framework.
- Receive copies of IfSE publications for distribution to staff (ePreview, Z Guides, Ω Guides).
